HARD

After the brutal death of her husband, 40-year old Sophie discovers his flourishing high-tech firm is actually a film production company, Sophix, that specializes in porn. Sophie is repulsed and fascinated by this world she'd never experienced before. But facing a mortgage and alone with two kids—not to mention her stirring feelings for Roy Hardwood, the company's biggest star—Sophie decides to take over the company and dive headlong into the business of porn. Life is hard-core for Sophie now...in more ways than one.
